MY CU® Services Finalizes AMIS Purchase

Sale brings data processing, enhanced network capabilities to Mid-Atlantic Corporate CUSO

Middletown, Pa. (Dec. 17, 2013) – MY CU Services, the payment service and technology CUSO of Mid-Atlantic Corporate Federal Credit Union, finalized its purchase of AMIS (Advanced Management Information Systems) on Monday, December 2.

With the purchase, MY CU Services adds data processing as well as other related core system products, broadening its electronic payment and technology solutions for credit unions nationwide.

“AMIS shares our philosophy on collaboration – believing in the benefits afforded to credit unions when they combine resources and purchase power,” said Drew Kishbaugh, president/CEO of MY CU Services. “This is winning combination for any credit union wanting to take advantage of high-quality services coupled with economies of scale.”

The transition is anticipated to be smooth, as MY CU Services and AMIS have worked in partnership over the years and share many credit union clients. Currently, MY CU Services works with more than 750 credit unions in 48 states.

AMIS is based in Carnegie, Pa., and its offices and current staff will remain in place.
